Subject: MLPAComments: Marine Protected Areas

Sirs/Madams:

As a California citizen and taxpayer and an advocate for strong measures to protect our coast and related marine areas; I ask that you enact rules, regulations and legislation to preserve the remarkable beauty and diversity of the oceans off our coastline.

We are blessed to have such a resource that serves so many purposes - from commercial fishing to surfing to the quiet contemplation of our place in the natural world. Don't let exploitation, development, over-fishing or oil drilling despoil that. Please keep it clean and healthy for all of us and all our future generations to appreciate.

Thank you for your consideration.
